

Voter Fraud Oregon's Corrupt Ballot System

By W. Ames Curtright

The voting system in this state has more play in it than a 200 year old motor that has been running for those two hundred years! Men and women died for the freedom to vote and have their vote counted. Oregonians need to be able to vote at the polls where people can be properly identified in a secure environment and with knowledge that their vote will not be corrupted. Oregonians want an environment where we have the right to vote without the threat of a gun, or a union coaching us, or the

intimidation of outside forces. The people at the polls are the true counters of the vote. That is where the security of the vote is at.

Today The Oregon Vote is corrupted! Oregonians do not trust the voting process because its security has been violated by leftist factions in power and Oregonians know it.

The vote is corrupted when ballots are picked up by individuals and then carried in to election officials.

The vote is corrupted when voters, such as the elderly or mentally handicapped, are coached while they are voting.

The vote is corrupted when illegal aliens or the dead can vote and they do.

The vote is corrupted when that voter does not have the security of a voter booth.

The vote is corrupted when there are hundreds and some times thousands of

missing ballots to verify the vote cannot be found.

The vote is corrupted when unused ballots are not destroyed as per ORS 254.483 and they are not.

The vote is corrupted when there is no documentation of the number of ballots picked up from ballot drop-sites, when they are picked up, and when they arrive, or how many actually arrive at the election offices.

The vote is corrupted when people cannot track their vote.

The vote is corrupted when votes are not counted and returned.

The vote is corrupted when a counter can determine your party and a single person can throw out the vote.

The vote is corrupted when by early opening of the ballots, the vote enhancements and the early vote counting which contributes to the likelihood that those counting the votes are determining the outcome.

Voting by mail is corrupted in general because it has hundreds of flaws and

Voter Fraud...
continued from pg. 6

opportunities to cheat. Voter registration is easy to get legal or non legal. One can vote once, twice and often in Oregon's vote by mail system.

The vote was corrupted in Portland when the polls continued to collect ballots past the 8:00pm deadline in Multnomah County. Suddenly out of the blue Dudley falls behind in the most liberal counties at the last minute. Lane and Multnomah. The

poll closes mysteriously at 1:00 am unsupervised!

And they just in the nick of time the media makes the call conveniently and these two counties's come up with the right amount needed to get Kitzhaber elected. Wow!

Thousand of illegal votes in a borderline election is easily done just like Washington State . Dudley lost because of the illegal votes. Nothing else! Don't let someone else tell you otherwise.

The liberal left has no qualms about stealing the vote and they want that vote by mail which opens up the system to the fraud listed above. The polls guarantee a traditional secure place to vote and the means to prove that you are who you say you are and it is supposed to be counted by the people not the government at the polls. If voting at the polls in Iraq is good enough for those now free people of Iraq its good

enough for Oregonians!
My name is Dr. W. Ames Curtright dba (Doctor of Business Administration). For those of you who voted for me for Governor. I want you to write and call and raise holy heck until we get our rights back to vote in a secure location taken from us 24 years ago. Twenty four years ago the Democrat Secretary of state, Phil Keisling, saw

the opportunities of voting by mail. Voting by mail certainly isn't cheaper. It cost much more. It certainly is not security. We have more fraud. It certainly was not approved by the people. We need to take the votes back to a manual polling system and hold elections at private polling locations where voters can be qualified and voter intimidation removed from the process. ■
